

"We're extremely proud of the strides our students make in as they pursue advanced degrees at their own pace in our facilities."

WCCCD also offers advanced degrees in various subjects including a Bachelor of Nursing Degree from University of Michigan-Flint. Other University Center partners include University of Detroit Mercy, Michigan State University, Ferris State University, and Western Michigan University.

Information about all District events can be found at www.wcccd.edu.

My COLLEGE Eastern Campus

Where Learning Leads to a Better Life! [WWW.WCCCD.EDU](http://www.wcccd.edu) | EASTERN CAMPUS | WINTER 2016

Letter from the President

Welcome to the Eastern Campus of Wayne County Community College District.

We are so thrilled at all of the advances our campus continues to make on the east side of Detroit. We have added more academic programs and continue our community outreach endeavors in a dynamic way. Our campus is much more than a place to take classes; we are a center for the community.

This is a very important time for our District as we begin our 50th anniversary celebration. The District has and continues to grow rapidly and we couldn't be more proud to be a part of this legacy.

We invite you to come and be a part of the action here at the Eastern Campus. We offer a range of courses and educational resources that your needs are sure to be met. We look forward to seeing you on campus.

Sincerely,

Mawine G. Diggs, M.Ed,
President
Eastern Campus/CAO

WCCCD Breaks Barriers on Breast Cancer Awareness

WCCCD participated in various activities to help raise awareness and funds for breast cancer awareness during the fall semester.

The School of Continuing Education and Workforce Development, in partnership with St. John Providence Health System presented "Breaking the Barriers on Cancer Awareness" at the Eastern Campus. The half-day seminar was designed to provide information on screening, prevention, diagnosis and treatment of breast cancer. Participants also had the opportunity to have interactive discussion with renowned breast surgeon Dr. Cheryl Wesen of St. John Providence Health System.

During the seminar, participants gained insight on care options for loved ones and

preventative measures. The District offered a mobile mammography facility at each of the campuses throughout the month of October.

As featured in the St. John Providence newsletter, The WCCCD Think Pink Volleyball Tournament fundraiser raised \$2,774. Additional funds raised by WCCCD were delivered to St. John Providence Hospital's "Because We Care" Program to help women receive exams through the mobile mammography unit at St. John Providence Hospital. The college District credits the teamwork of administrators, staff and students for the tremendous support to the hospital and the fight against Breast Cancer.

WCCCD Provides New Tech Center for Boys & Girls Club of Southeastern Michigan's NFL-YET Detroit Club

The Boys & Girls of Southeastern Michigan received a significant technology upgrade to its NFL-YET Detroit Club at the Dauch Campus thanks to funding by WCCCD provided through CBS EcoMedia's EducationAd program. More than 1,700 club members will now have access to a newly outfitted technology lab, with upgrades, including 12 new computer stations, printers, computer accessories, digital microscope kits and one year of Internet access.

"We are thrilled to partner with EcoMedia and Boys & Girls Clubs on this vital initiative to help provide new and better tools to young people in our community," stated WCCCD Chancellor Dr. Curtis L. Ivery. "Our mission at WCCCD has always been to provide pathways to better lives through higher education, and we understand that involves having access to technology that works at the speed of young people's minds."

"Access to technology is an integral part of preparing our youth for college and career success"

The existing technology at the Dauch Campus was eight years old. Thanks to WCCCD's funding, the newly acquired state-of-the-art educational tools will support education in information technology and enhance college readiness. The upgraded equipment allows members to complete homework assignments after school while helping to develop computer and time management skills.

"Access to technology is an integral part of preparing our youth for college and career success," said Paul Polizzotto, President and Founder of CBS EcoMedia. "With the support of WCCCD, Club members at Boys & Girls Clubs of Southeastern Michigan will continue to build the skills they need to succeed in school and beyond."

Pardon Our Dust! Student Services Division Launches New Full Service Suite

Construction of the new Student Services Suite has been completed. The space is approximately 2,500-square-feet. The suite features a lounge area, study carrels and laptop charging stations.

"We hope to duplicate this facility across the District," said Assistant to the Chancellor for Student Success Brian Singleton. "We want to offer not only a more visually appealing space but one that is fully functional for our students who are learning and working in such an advance, digital generation," Singleton continued.

Students who have viewed the new space throughout

construction are thrilled to have access to advisors and technology in a comfortable space. "This new space is so cool, I love it already said a student as she browsed through the class window. It gives the building a fresh look and will be great for recruitment."

The Student Services Division hopes to incorporate the principles of first class customer service standards set across the District with the implementation of this new suite. The latest edition to the Student Services Division is now open. For more information on the Student Services Suite, please visit wcccd.edu.

New University Partners Extend WCCCD Advanced Degree Opportunities

Earning an advanced degree has now become less complicated thanks to strategic partnerships from local universities and Wayne County Community College District. With more than 15 bachelor and master degree programs, students are now offered more unique opportunities to complete advanced degrees though the community college at a fraction of the cost and time usually required at traditional universities.

Northwood University's Master of Business Administration and Madonna University's Bachelor of Science Degrees in Business Administration and Aging Studies are now offered at the District's Mary Ellen Stempfle University Center- Western Campus.

WCCCD students may apply an Associate of Arts with Certificate in Gerontology to a Bachelor of Science in Aging Studies from Madonna, or an Associate of Applied Science or Associate of Arts in Business Administration to a Bachelor of Science in Business Administration – Human

Resource Management. Both programs will be offered at the Mary Ellen Stempfle University Center – West, in Belleville.

"Our growing articulation agreements with local universities helps to solidify our mission to helping employ our students in gainful fields and industries throughout our region," said Dr. Sandra Robinson, Provost of WCCCD's Mary Ellen Stempfle University Center.
